The White Mountain National Forest is one of the most heavily used forests in the U.S. It is within a day's drive of 80 million people. Over 7 million visitors come to the Forest every year to picnic, camp, hike, ski, and snowmobile. These same Forest lands produce timber, provide watersheds for town supplies, and habitat for plants and animals.

The White Mountains Interpretive Association (WMIA) was formed in 1985 to help visitors develop an understanding of and appreciation for the National Forest's resources. Each year over 15,000 people attend various interpretive programs supported by WMIA.

Your membership in the WMIA makes you part of a group that is helping users of and visitors to the White Mountain National Forest become active stewards of our National Forest, helping to care for and protect New England's treasured spaces.
